

Proposal For Elam Bazar V1.0

Client: Jyothis N Joseph

Prepared by: Ryzenforge Enterprises LLP

Date: February 16, 2026

Project Type: B2B Multi-Platform Auction Ecosystem

1. Tech Stack & Architecture

- **Frontend:** React Native (Expo) for a single-source codebase that compiles to high-performance Android and iOS apps.
- **Web:** Next.js for the Admin and Seller Dashboards (optimized for desktop).
- **Backend:** PostgreSQL + Supabase (Relational database for ACID-compliant financial ledgers).
- **Real-time Logic:** WebSockets (Realtime Engine) to broadcast bids without page refreshes.
- **Serverless Logic:** TypeScript Edge Functions for the "Soft Close" timer (10s reset logic) to prevent network lag from affecting the auction.

2. Development Cost (Est cost)

- UI/UX Design: 60,000
- Android & iOS Dev: Rs 1,50,000
- Backend & Logic: Rs 50,000
- Admin Dashboard: Rs 50,000
- KYC & Auth Module: Rs 25,000
- Security & DevOps: Rs 10,000
- Testing & QA: Rs 15,000
- 3rd Party Licenses: Rs 50,000

Total Project Cost: Rs 5,50,000/-

Note on Revised Cost:

The earlier estimated project cost was ₹4,10,000. The revised total of ₹5,50,000 includes an additional ₹1,40,000 allocated under the Priority Package.

This amount covers additional resources, day and night shift operations, and accelerated execution to ensure project completion on or before April 1st week without compromising quality.

3. Infrastructure & Platform Fees Yearly cost:

- **Backend Core:** Rs 25,200 + GST
- **Trade Speed:** Rs 15,000 + GST (Recurring costs for high-speed cloud services)
- **Apple Developer Program ID:** Rs 8,200 + GST

- **Domain:** Customised price client preference
- **Others:** Pay as you go (Connect Payment Gateway) : Auth KYC, Sms, Backup, Bank Verify, Payments, Tracking, Storage

Legal & Regulatory (Important Note) State Govt :

APMC/Directorate of Marketing License: In most Indian states, a private e-trading platform for agricultural produce requires a specific license from the State Agricultural Marketing Board. TCS (Tax Collection at Source) Logic: As an e-commerce operator, you are legally required to deduct 1% TCS on the net value of taxable supplies and remit it to the government. Your backend must automate this, or your accounting will fail.

Important Note: Priority Package & Accelerated Delivery Commitment

To ensure the successful completion and delivery of the Elam Bazar project on or before April 1st week, an additional allocation of **₹1,40,000** has been included under the Priority Package.

This additional investment is specifically allocated for:

- Deployment of additional dedicated technical resources
- Execution through day and night shift operations
- Continuous development and monitoring support
- Dedicated project coordination and faster turnaround time
- Priority handling across all stages including planning, design, development, testing, and deployment

The inclusion of these additional resources is essential to meet the committed deadline while maintaining quality standards and ensuring smooth execution without delays.

This allocation is made solely for the purpose of accelerated delivery and priority execution.

Best regards,
Dhanush Sankar
